

The Spirit of Achievement  
makes our students

PROUD  
**WONDERITES!**

THE EDUCATORS AT SWS TAKE PRIDE IN  
CREATING AN ENVIRONMENT WHERE  
CURIOSITY IS APPRECIATED,  
QUESTIONS ARE ENCOURAGED  
AND DIFFERENCES ARE RESPECTED.

## *From the Principal's Desk*

Never stop believing in hope because miracles happen every day!

**T**Internet and the World Wide Web is a constant source of knowledge and information along with a source of motivation. This quote by an unknown writer came on to my screen this week and made me think about the entire last 10-11 months of the year.

The month of February of the year 2021 is on its last leg before the month of March begins. It has been nearly 320 days since the news of the lockdown and immense change that none of us had expected before. This year has seen its fair share of stress, change and hope as well. There is a vaccine out there that the frontline workers are getting to protect them from the virus and that definitely brings with it a strong feeling of hope and belief in the perseverance and strength of human beings.

In the school, we have taken a huge leap by welcoming the senior students, whose parents have given their approval for the students to physically attend the classes conducted in the school. The school building has the energy of the students back making it vibrant and happy. Fumigation of the school and its surrounding areas, sanitization of the school building, tables, chairs, door handles and everything that is touched by the staff members or the students, is in full swing along with consistent temperature checks and availability of first aid and medical support.

We will begin the new session 2021-22 by launching the hybrid teaching format, combining online and offline teaching methodologies. The students who wish to come to the school for their classes will have regular classes and the classes will still continue for the students who wish to join online classes. The preparation for the same are in full swing. The most crucial steps to ensure this seamless learning possibilities for all students are being taken as I write this note addressing all of you. Safety of the students, bandwidth of the internet facilities, cameras in the classrooms, online and offline worksheets, assessment of the students using Google form and hand written tests along with all other requirements are being listed and planned in detail as we speak. We at Smart Wonders School are in the process of putting into place a cyber as well as on campus-security protocol for the students and staff members to ensure their safety.

Looking forward to a safe and happy start of a new academic session.

Warm Regards  
Poonamjit Kaur  
Principal, Smart Wonders School

Students of Class 1

## Basant Panchami Celebration

*To go with the mustard flowers bloom,  
Let's flaunt our dresses in Yellow hues,  
Worship Goddess Saraswati with all divinity,  
And share yellow sweets with all the swoon !*

Basant Panchami is an occasion which marks the onset of the 'Spring Season'. It is also celebrated to worship Goddess Saraswati, the embodiment of knowledge and wisdom. The students of the Foundation Years celebrated Basant Panchami with cultural fervour on February 12, 2021. A special class assembly was held on this day. Yellow colour –representative of spiritual knowledge, is given importance on Basant Panchami. To mark the occasion, the little wonders came attired in yellow clothes. It started with the reciting of 'Saraswati Vandana'. This was followed by a presentation on the various aspects of the festival. Then students shared their views and recited beautiful rhymes on Basant Panchami. The students made beautiful drawings for the Spring Season. It was indeed a beautiful way to invoke the blessings of Goddess Saraswati.

# Republic day Assembly (Primary Wing)

Smart Wonderites celebrated the 72nd Republic Day with a lot of enthusiasm and patriotic fervor. An assembly was conducted on the 25th January 2021 to mark this special day.

The students brought the class alive with their passion and love of the motherland through their speech. Students took pride in sharing the glorified history of Republic Day. A video depicting the importance and relevance of this day was shared by the teacher with the students. Students were spoken to about the bravery awards given on this day. They were also motivated to see the Republic Day parade the following day. The assembly was concluded with the National Anthem.

# Republic Day at SWS

Republic Day Assembly 8A

Republic Day is celebrated all over India with great enthusiasm and joy. It's a day to honour the Constitution of Independent India. This year we celebrated 72nd Republic Day on 26 January 2021 by conducting a special online Assembly. Children of Classes 6-8 organized the assembly by putting in their heart and soul where they talked about democratic nature of their Constitution, sang patriotic songs and celebrated the vibrant aspects of the cultures of different states through dance and skit.

Organising such an event promotes appreciation for the diverse cultures of the country. The event saw some budding artists who not only performed but organized and planned the event also. Sharing some pictures from the event here.

## Road Safety Month at SWS Mohali

The Ministry of Road Transport & Highways observes the National Road Safety Week every year in the second week of January. "Road Safety Week" is observed throughout the country every year in order to highlight and emphasize the need for safe roads.

However, in 2021, the Government has decided to observe National Road Safety Month instead of National Road Safety Week. Accordingly, the National Road Safety Month was observed from 18th January, 2021 to 17th February 2021.

CBSE as a part of its advocacy campaign for road safety has advised all its affiliated schools to observe 'Road Safety Month'.

The students of classes 6-8 at Smart Wonders School observed Road Safety Month and organized various events on the theme 'Sadak Suraksha, Jeevan Raksha'. It gave an opportunity to all the children to contribute to the cause by taking up activities to promote the concept and be a part of the advocacy campaign for road safety. Children prepared Posters, Slogans, Cartoon Strips, Videos, PPTs and conducted awareness campaign to spread the message of 'Hum Surakshit toh Jug Surakshit'

## Seasons Activity

*Spring is green, Summer is bright,  
Autumn is yellow and Winter is white !*

To hone the hidden talent and ignite the artistic streak of students, Art and craft plays an important role. It is about encouraging, nurturing and showcasing every child's natural creative flair. In line with the theme of the month about seasons and weather in EVS a clock making activity "was conducted for class 1 during EVS class. The aim of the activity was to make the students create and be aware about the different seasons and the changes that occur in each season.... how Mother Nature looks different and beautiful with the change in every season! The students made beautiful and vibrant clocks to showcase their understanding about various seasons. The students not only enjoyed the activity that gave them an opportunity for their creative expression but also motivated them to express their learning in an artistic form. They also spoke about their favourite season and what they like most about it. It was a delightful experience both for teachers and kids.

# Science Activity SW

*Lets' Learn by Doing*

We at Smart Wonders school are trying out different teaching strategies to create a better learning experience for our students. Some of the techniques are creation of real-life scenarios that involve case studies and ways of analyzing current problems. Students bring solutions to the problems and learn to apply their knowledge effectively. Hands-on activities are encouraged that engage students beyond the lecture and teach useful scientific concepts. Students of classes 6 and 7 made 3D Models in their Science Class and learnt about bones and their functions in the human body. They made working models of Kaleidoscope and presented water conservation models.

The activities kept children engaged throughout and brought out creativity in making the models. The material used was Ice Cream Sticks, Plaster of Paris, Edibles from the kitchen, Bangles etc. Children not only created the models but explained their functioning as well to their peers thus Peer to Peer learning happened during online classes. The attention span of children always increases when such learning techniques are used in the class

Sharing some pictures from the activities.

## EVS Activity

*“Health is a state of complete harmony of the body, mind and spirit”*

Good health is a blessing indeed! Year 2020 has made us all realize that health should be the top priority for everyone to enjoy one’s life.

Importance of good health was the focus of the lesson ‘Health and Disease’ done in EVS in Class 5.

We all know that good Health is a combination of a healthy diet, regular exercise and proper sleep. Good health is not achieved overnight but is a result of consistent efforts in maintaining good habits and of course a healthy diet. Students of Class 5 learnt few yoga asanas as an extended activity in EVS and practiced them. Not just that, they also motivated their family members to practice yoga every day. It was a pleasure to see them practice yoga. Here are a few glimpses of the same.

## Ek Bharat Shreshth Bharat

*Project Work-Done by the students of classes 6-10*

'Ek Bharat Shreshth Bharat programme' was launched by our Prime Minister which aims to promote a sustained and structured cultural connect in the areas of language learning, culture, traditions and music, tourism and cuisine, sports and sharing of best practices among its citizens.

Under the same programme various states and union territories are paired together and children are expected to learn about the culture and traditions of their pairing state.

For this Unifying Expression Series, our state "Punjab" has been paired with 'Andhra Pradesh'. Children of classes 6-10 were given various projects to explore, compare and contrast culture, cuisine, costumes, literature, cinema etc of both the states-Punjab and Andhra Pradesh. We are presenting here some glimpses of the work done by our students for the same project.

## Show 'n' Tell Activity

Learning through activities is a form of education in which children learn by doing. Activities like Show 'n' Tell are valuable teaching tools for all subjects. Such activities let the students' minds grow and learn based on the experiences and the environment they are exposed to.

The students of Class 1 showcased their talent by participating in the Hindi -Show 'n' Tell activity on "औ की मात्रा". The students created their own beautiful props and drawings to present the topic in the classroom. Students recited poems/spoken confidently with actions, expressions and voice modulation. All the students enthusiastically participated in the activity. It was a day full of joy, excitement and learning where the students got a chance to enhance their speaking skills, listening skills and boost their confidence level.

The students enjoyed the activity and later shared the pics with the class educator and truly followed the tagline "Learning together even when we're apart"!

## Student's Corner

### Do you ever wonder?

Do you ever wonder?

We're the ones who made life so hard for ourselves.

We're the ones who are responsible for someone's depression.

We're the ones who harm our animal friends.

We're the ones who made up extreme beauty standards.

We're the ones who give hateful criticism and judgement to others.  
but,

What if we made the world a peaceful and better place to live in?

What if we help in curing someone's depression?

What if we stand up for our animal friends and help the voiceless?

What if instead of looking at each other's faces we try to look into each other's souls?

What if we stopped interfering in each other's lives and were kind to each other?

Do you ever wonder?

Aanya Patiyal, IX-B

### In My Bag

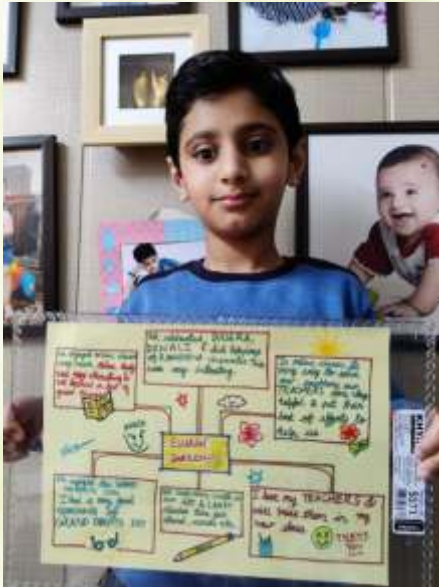

I bought a new bag,  
Which contains an Indian Flag  
The bag is very bright,  
Its load was very light.

A new bag,  
Looks like a sac.  
It has many zips,  
In the bag, I kept a packet of chips.

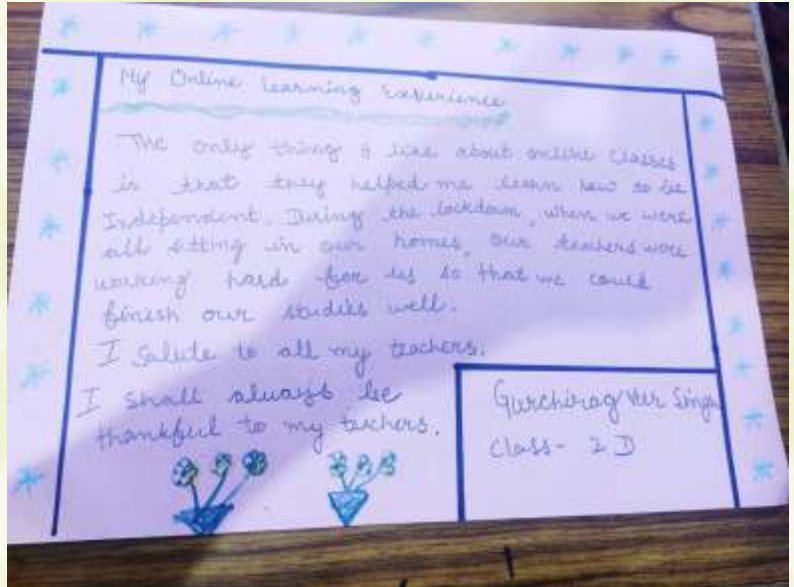

My mother washed it in the washing machine,  
Then it changed into the colour 'GREEN'.  
I was very sad,  
But my mother was very glad.
