

The Spirit of Achievement
makes our students

PROUD
W**NDERITES!**

THE EDUCATORS AT SWS TAKE PRIDE IN
CREATING AN ENVIRONMENT WHERE
CURIOSITY IS APPRECIATED,
QUESTIONS ARE ENCOURAGED
AND DIFFERENCES ARE RESPECTED.

From the Principal's Desk

"Winter, a lingering season is a time to gather golden moments, embark upon a sentimental journey, and enjoy every idle hour."
~John Boswell

As we were welcomed by the cold, rainy days this New Year, it gave us all a chance to spend the vacation in the warmth of our homes with our family and loved ones and refresh our minds. To keep the children occupied, they were assigned various tasks that were fun and improved their learning. Though we were all geared up to welcome back our students after the holidays, unfortunately the COVID scenario changed again. We would like to reiterate that the safety of our students is our priority and all the COVID protocols are being followed sincerely. In these times, it is necessary to follow all the safety guidelines to keep everyone safe so that we may return to the normal life.

With that said, we had an eventful January. Various activities were organised for the children to showcase their talents and skills. The patriotic fervour was visible at Republic Day celebrations. No stone was left unturned as students recited poems, sang songs, danced and dressed up in green, white and orange.

Even though the classes are being conducted in online mode, the enthusiasm of the students and teachers deserves appreciation. The students whole heartedly participate in all the activities that are thoughtfully organised by the educators.

With the end of the session approaching, it is time to pull up our socks and give our best in the Final Assessments. Exams give us the opportunity to overcome failures, develop as an individual, chance to self assess and introspect. For the teachers, exams help in understanding the level of learning achieved by the students and rectify the shortcomings.

I wish all my dear students the very best for the upcoming exams, the blessings of every educator is with you! I have full faith that you all will excel and we will see a brilliant result.

Warm Regards,
Poonamjit Kaur
Principal, Smart Wonders School

Elocution

To develop and enhance the oratory skills and fluency of the students, an elocution was conducted in the English period of Primary Years, Classes 3 to 5. The children delivered speeches and recited poems on the given topics for a minute or two. The activity helped the students in focusing on their diction, fluency and confidence.

The topics for Class 3 were 'I wish I were...', 'Diligence- A Key to Success' and 'My India My Pride'. Topics for the students of Class 4 were 'If I had a superpower', 'Diligence- A Key to Success' and 'Freedom is not given, it is taken'. Children of Class 5 spoke on the topics 'Learning in the wake of Covid-19', 'Diligence- A Key to Success' and 'We are Indians, firstly and lastly'.

Model-Making Activity

To promote scientific acumen and equip our tiny tots with 21st century learning skills such as critical thinking, communication, collaboration and creativity, a model-making activity based on theme 'Our Universe' was conducted for the students of Class 1. The students made environment friendly models using clay, paper etc. The activity provided the children a platform to display their vivid ideas and learn by interacting with their peers. The educators and coordinators lauded the efforts of the students.

Science Activity

To enhance the hands-on learning experience, students of Class 6 performed various activities in their Science class related to the concept of air. In this activity, pupils lighted two similar-sized candles. One of the candles was covered with a glass tumbler and the other one was not. The candle which was covered extinguished after sometime, proving that oxygen is required for combustion.

Area and Perimeter Activity

Students of Class 5 performed an activity in their Math period that helped them in grasping the concept of finding the area and perimeter. Using their creativity and imagination, children drew pictures of their favourite person (best friend, sibling, pet or any cartoon character) using square units on a grid paper and found the area by counting the squares. Along with drawing and finding the area, students also spoke a few lines on that person, thus improving their communication skills. The activity turned out to be a fun learning experience for all and helped them realise the role of Mathematics in their daily life.

Bird Feeder Activity

Experiential learning is an engaged learning process wherein students 'learn by doing' and by reflecting on the experience. To inculcate learning, it is important to teach using multiple methods and provide children with opportunities that engage them intellectually, creatively, emotionally or physically.

Keeping this in mind, students of Class 1 created beautiful bird feeders to show their care and affection for these creatures. They built the bird feeder with paper plates, strings, ribbons, ropes and bottle caps and decorated them to attract the birds. Later, they put grains and water in them. The students enjoyed the activity and learnt that watching the birds is a great way to connect with nature and relax.

मेरा देश: मेरी शान

गणतंत्र दिवस भारत का राष्ट्रीय पर्व है। यह दिवस भारत के गणतंत्र बनने की खुशी में मनाया जाता है। 26 जनवरी, 1950 के दिन भारत को एक गणतांत्रिक राष्ट्र घोषित किया गया था। इसी दिन स्वतंत्र भारत का नया संविधान अपनाकर नए युग का सूत्रपात किया गया था। तब से 26 जनवरी को हर वर्ष गणतंत्र दिवस के रूप में मनाया जाता रहा है।

कविता भाषा के विकास कौशल में मदद करती है और आत्म अभिव्यक्ति का विकास करती है। इसलिए कक्षा १ में गणतंत्र दिवस पर कविता पाठ का आयोजन किया गया। छात्रों ने 'My India My Pride'-मेरा देश: मेरी शान विषय पर अपनी कविता तैयार की बड़े उत्साह से कविता याद करके सामग्री के साथ सुनाई। यह गतिविधि बच्चों ने बड़े ही उत्साह और आनंद से की।

Republic Day Celebrations

Virtual celebrations were organised for the students at SWS to commemorate the 73rd Republic Day. The students took pride in glorifying and celebrating the spirit of unity and brotherhood. The school echoed with patriotic fervour as the children danced, enacted skits, sang patriotic songs of different states and wore tri-colored clothes to mark the occasion.

They showed India's journey from getting Independence to becoming a Republic and celebrated the diversity of the country. Moreover, pupils presented stories of unsung heroes as part of Azadi ka Amrit Mahotsav. Different dance forms, art and cuisines of various states were appreciated, as a part of Ek Bharat Shreshtha Bharat. Postcards were sent to the Prime Minister on the theme- India @75 and an online quiz was also organised, wherein students and teachers participated with full zeal.

The programme ended with the inspiring words of Principal Ms. Poonamjit Kaur and our special guest Ms. Neha P. Arora, a social worker and co-founder of Mudita Foundation (NGO). Vice Principal Ms. Raina Chona highlighted the significance of the day and made the children aware that the future of our nation lies in their hands.

Show 'n' Tell

“Tell me and I’ll forget,
Show me and I may remember,
Involve me and I’ll understand”
~ Benjamin Franklin

At SWS, we believe that teaching goes beyond textbooks and blackboard. To help in developing the basic motor skills and encourage the innovation skills of the students, a “Show 'n' Tell” activity was organised for the Wonderites of Class 1 on the topic- “My Best Friend”. The students were ready with the props and exhibited their talent as they spoke with great zeal and enthusiasm. It was an enriching experience for them and they were thrilled to talk about their best friend.

TLC Training for Teachers

A virtual three-day training session was conducted by The Learners Confluence (TLC) team for the academic staff of SWS. TLC is an external agency that works with the teachers to achieve excellence in the teaching - learning process.

Dr. Senthil, Ms. Geetha, Ms. Srividya, Ms. Neha P. Arora and Mr. Suryakumar were the mentors who covered different areas such as Enhancing SPP effectiveness with Data at various levels: School/ Department/ Teacher/ Student SPP; Assessment Policy: FA & SA - Need of Blueprint, Blooms Skill Based: Question Paper Analysis, School Pedagogical Plan (SPP): Need, Expectations & Implementation; Constructing MCQs; and Strategies to bridge the gaps: Remedial, Re-teaching & Beyond.

Dr. Senthil

English Projects

Class 3 to 5

To enhance the reading and writing skills of the children, students of Classes 3 to 5 were assigned various interesting and thought-provoking tasks for the winter vacation. Pupils of Class 3 were encouraged to read adventure stories and design a book cover either by drawing characters or a scene from the story. They were also told to research on the eight recognised families of fairies – Elves, Dwarfs, Pixies, Gnomes, Gremlins, Goblins, Sprites and Demons. The children gathered information and made wonderful presentations on them.

Questioning techniques are important as they stimulate learning, develop the potential of students to think and stir the imagination. Keeping these points in mind, students of Class 4 were assigned to design a questionnaire as holiday project. They created praise worthy questionnaires and also wrote innovative stories, expressing themselves articulately.

Writing poems is a great exercise for language learners as it gives a chance to experiment with language. Pupils of Class 5 wrote beautiful poems on Christmas and expressed their ideas in their verses. To strengthen their vocabulary and writing skills, they were also given the opportunity to create a tourist brochure.

Webpage Designing Activity

Coding is one of the most important skills for the current as well as future generations to learn. For young learners, programming helps in gaining problem-solving skills. Most importantly, coding is the future and therefore, an extremely useful skill to possess. Children who learn coding at a young age will have numerous employment opportunities in the future.

To encourage the students to learn coding “Webpage designing using HTML” activity was conducted for Classes 6-10 wherein children created a website on the topic of their interest. The response from the children was overwhelming.

Fun with English!

Students of Class 6, 7 and 8 showcased their creativity and imagination in the form of wonderful comic strips, poems, brochures and collages. They were told to make comic strips, depicting their favourite stories from their supplementary reader and to search famous travelogues or diaries and blend them together into a collage. Children were also encouraged to compose poems on the theme- 'What If'.

Students prepared brochures of famous tourist spots. The main aim of this activity was to motivate them to read, understand and create, thus making them aware about famous writers, authors, poets and places.

The Human Body

To make the students aware of the purpose and functions of specific organ systems in our body and to explain a variety of strategies for keeping each organ system healthy, pupils of Class 3 were assigned a project on the topic- 'The Human Body'.

The students chose an organ system and created booklets by reading books and encyclopedia to find diseases related to that organ system. They also searched for the specialist doctor who treats those specific organs, thus increasing their knowledge.

Reading Challenge

In order to inculcate reading habits in students, a 'Reading challenge' was organised for students of Classes 6-8 according to the guidelines given by CBSE. Students were asked to bring a book that they have read and highlight the synopsis, message conveyed and what they liked about the book. Students of all the sections enthusiastically participated in the activity. They analysed the books and encouraged their peers to read through their book reviews. Teachers played the role of facilitator in this activity.

Pupils also reviewed the books and presented critical analysis for the same. Class discussions were conducted wherein children talked about the books that they have read, highlighting characters and events that they particularly liked and students got the opportunity to share their valuable inputs. The style, ease of language and attitude of writers was also discussed. After the discussion, the students were asked to write their views on the book read by them.

Students were also encouraged to compose their own poems which they presented with full enthusiasm amongst all.

Currently, the students at SWS are participating in the '100 Days Reading Campaign' where they read something beyond their textbooks daily and share it with friends, parents and teachers.

Bidding Adieu

"It wasn't just school to me, it was the chapter I never wanted to end." – Unknown

Ishika Class 10A

Memories.

We may complain about our school work,
Perhaps we think our lessons are hard.
We'd much prefer to be out playing,
And running in the big school yard.
But with the passing of the years
The dearest memories we'll call
Will be of hours that we have spent
Within the old white school house wall.
We may consider it a trial
To have to add and multiply,
And lessons in geography
Bring many a long-drawn, anxious sigh,
But with the passing of the years
When time has cast its purple haze,
The memories that we will treasure
Will be of long-gone, old school days.

Manveer Class 10A

When I was 5 years old, my father was searching for a school for me. When we visited Smart Wonders School, we loved it at first sight. I started studying in this school in UKG, where I started by learning the alphabet... And the journey continued in learning many new great things. I am grateful to my all teachers as they all treated me just like our parents do. Even in the pandemic, when there was a full lockdown, then also the teachers made a lot of effort to make the concepts clear. They didn't make us feel that we are not learning. We always felt connected to them. I will always be thankful to my parents for sending me to this school. I will always remember the things which my teachers taught me. Smart Wonders School has a special place in my heart.

Yuvraj Class 10A

School life is the best time of our life as we make new friends, learn new things and start building our future. It is the only time which we enjoy most and when we enter college, we always miss our school life. School life teaches us lots of new things and prepares us to face all the challenges of life.

My school life was not just limited to studies and sports. There are various activity rooms such as music, art and dance where we got the chance to showcase our Imagination and create beautiful art. Dance and music were an important part as they helped us express ourselves in a unique manner.

I learnt the qualities of discipline and punctuality from my teachers, and I am sure that these things will help me in my future. I love my school life and really enjoy it. I have lots of friends, and all my teachers love me. When we will leave this school, we will not just leave with memories, but also friends, a base for a career and good manners for life. One should also remember that everyone is not privileged enough to get an education. If one gets this opportunity, then be grateful and work towards being a better human being. Cherish your school life and stay motivated.

Angad Singh
Class 10A

Everything started out great
Great school, great teachers and my wonderful peers
And then Corona got its date
The appointment seemed never-ending
Well it's said and said well,
After every dark night comes a brighter day
It was the test of time that we sailed through
Missed my friends, my teachers and my school
The knights (teachers) of online education saved us all
The rollercoaster of this journey taught a lot
Gave newer experiences and
The already said to be memorable classes (9 and 10) were even more memorable!
Treasuring and forever cherishing the relics of the batch of 2020-2021

Sehajveer Singh
Class 10C

MY JOURNEY AT SMART WONDERS!

Here come the last 2-3 months of this beautiful journey. I am going through a lot of emotions at this point of time. This beautiful journey started at Small Wonders when I was two-and-a-half-years old. Today, after spending 13 years (out of the 15 years of my life) at Smart Wonders, I am not ready to leave this place. I guess I never will be. The staff here is awesome, the teachers, the didis, the bhaiyas... everything is just perfect! I have learned so much during this period of time. Be it academically or holistically. This place has given me confidence to sing, dance, act and just be myself. Most importantly, it gave me memories to cherish. Moreover, my friends! I love them. They are the best people that Smart Wonders has given me. These are the people who support me through thick and thin. Recently, names for the student council elections were taken up. I didn't give my name for it because I had zero hopes of making it. But my friend Kangan insisted that I should at least try for it. Finally, I gave my name two days before the closing date. And guess what!!! I made it! I am the Cedar House Captain. I have a lot of stories where my friends helped me out in different situations. I am sure everyone studying here will leave this place in tears.

THANK YOU SMART WONDERS!

Our Proud Achievers

1. "CODE{2}WIN- A National Coding Competition" was organised by Robo Garden in collaboration with Eupheus Learning, wherein students competed at the school level. The students who scored well at the school level qualified for national level.

Our students performed brilliantly in the competition and brought laurels:

Kulbir Kaur of Class 7B got 183rd rank at the national level and 1st at the school level in Grade 5-8 (Middle Level)

Manfateh Singh of Class 8B bagged 157th rank at the National Level and 2nd at School Level in Grade 5-8 (Middle Level)

Pulkit Verma of Class 9B secured the 9th rank at the National Level and 1st at the School Level in Grade 9-12 (Senior Level)

2. Aadil Bhardwaj of 7A, Ayushi Gupta of 7A, Nandhini Vinoth of 7A, Ridhi Chopra of 7A and Yuvraj Uppal of 7A took part in the CBSE Reading Challenge 3.0 (Class 6 and 7) organised by Central Board of Secondary Education and were awarded a certificate.

Happy experiences of the parents in the Senior Wing

Rohit Sharma, Father of
Samaira Sharma, Class 9A

Due to the COVID pandemic, our students were affected by the closure of schools in the academic year 2020-21, just before the commencement of the new session. In order to provide a sense of continuity and stability to them during these unprecedented times, the team at Smart Wonders School left no stone unturned in exploring new avenues of learning. The school faculty and the management worked round the clock to ensure smooth transition from classroom teaching to interactive online sessions with the support of technology. These classes have been running successfully for the past one-and-a-half-year now. Their hard work and dedication is greatly appreciated. Even when the classes were in hybrid mode, the safety of our children was the priority of the school. The strength of the students in each class was taken care of. They were also supported emotionally when they started their offline classes.

Mother of Pulkit, Class 9B

COVID forced schools to reinvent and re-imagine the way education is provided to students. SWS has done an amazing job by proactively using the best platforms. They started with Zoom and later switched to Google Classrooms. Teachers learnt these new tools and in no time they became proficient. They also interacted with parents during online PTMs for any concerns and it was really smooth. We, as parents, were also able to see the participation of our ward in the classes. The criteria of assessment and activities held online helped to evaluate and improve student learning. This way of teaching put teachers under scrutiny all the time, but I would like to congratulate them for successfully executing their job. Even in Hybrid mode, we could see that equal attention was given to all the students. Proper precautionary measures were taken for the students who attended school offline. Though the students miss the school, but the way things have been handled by the school is commendable. We thank all the teachers and management for taking care of our wards despite all the challenges.

Megha Agrawal, Mother of
Avishi, Class 9B

Ever since the first COVID wave hit us in 2020, it has been learning experience for one and all. The adaptation of teachers and students to the new online teaching methods is commendable. This new method of communication has indeed made the students more tech savvy, which is the need of the hour. Though students are learning and adapting well to the online classes, we all know that offline mode is the best for the all round development of the students. But safety and health is a priority for the teachers as well as for the kids. Conduction of PTMs, inter-school competitions and online assessments went quite well. We are really grateful to the staff for putting in so much effort to keep the future of our students secure. I am sure their education is in safe hands at SWS. Keep up the good work!

Jatinder Kaur, Mother of
Kishreen Kaur, Class 9C

The world as we know has changed in the blink of an eye. Schools closed overnight and parents had to struggle engaging the children at home. Then came the Corona warriors- the teachers. Families along with the learners have adjusted to the online education. Earlier, it was difficult due to the lack of a structured environment with a set routine. Students struggled due to the lack of face-to-face interaction with their teachers and peers. Hats off to all the teachers who came up with innovative ideas to engage the students in the teaching learning process. They have left no stone unturned to give their best in online teaching. None of the co-curricular activity was missed during the past two years. Many times, teachers had to struggle with the disengaged students but they didn't lose their temper and tried to find alternative ways to engage them to make the class productive. These two years were special for me as my daughter participated in almost all the activities and gained a lot of confidence.

Kuldeep Kumar, Father of
Vanshika, Class 8C

The past two years have been a roller coaster ride for all- learners, parents, and teachers. In my experience of this journey, online classes were the need of the hour for the students in this pandemic. The school conducted online classes in a very pleasant manner, everything was managed and planned. Students were able to understand the concepts and the apps which the teachers chose were upright to teach. After one and a half year, the school opened, and then also every precaution was taken and everything was great. And now schools are again closed, so the online classes started and they are going well.

Paramjit Singh, Father of
Nimrat Kaur, Class 8C

A big salute to the staff and management of SWS for providing online studies and extra-curricular activities during the pandemic in a very nice manner. The way in which educators educate the children is highly commendable. The children were always learning something new which kept them highly enthusiastic to attend the classes. We are thankful for the supportive teachers who are ready to go the extra mile for the students. SWS is the best school in the Tricity I highly recommend it.

Mohit Singla, Father of
Nitya, Class 8C

Being a teacher, it's a difficult task to teach students online, clear their queries and maintain the best academic results. So, I appreciate the teachers and management of SWS for doing their best without compromising the studies of their students. From the main subjects to the curricular activities, the teachers put in immense efforts to groom the personalities of our children. Our experience of this journey was very good. Everything was well organised by the school in both modes and it did wonders in creating a fun loving virtual environment to boost the students' confidence in this pandemic.

Paramjeet Kaur, Mother of
Abhijeet Singh, Class 8A

Since the online classes have begun, we have seen the same consistency and efforts from the school's side which has helped our ward grow and learn well, despite being at home. All the lectures are delivered well by the teachers and many activities are also conducted, which is very appreciable. The class work and homework of the students are managed very well.

SMART WONDERS SCHOOL

Near IVY Hospital, Sector 71, Mohali.
