SWS/ACD/2022-23/23A

Dear Parent

Greetings from Smart Wonders!

Let's move a step ahead towards experiential learning !

As you are aware that NEP 2020 has been rolled out and it has highlighted the need for introducing skill education and experiential learning. To give students an opportunity to think beyond the textbooks, CBSE has introduced 10 Bagless days in a year for the learners. The purpose of this initiative is to add element of fun while teaching and to give hands on experience to the learners. We at SWS are keeping our children updated so we have introduced skill subjects in classes 6-9 and are now planning to have bagless days for classes 6-8 starting from the month of July, 2022. The students will be doing multimedia presentations, lab experiments, outdoor activities and self reflection on different learning modules during the bagless day. We are looking forward to a wholehearted support from our parent community and enthusiastic participation from the students. The bagless day for class 6 will be observed on 12th July, for class 7 on 13th July and class 8 on 14th July 2022. On the similar lines, bagless days will be planned in future also and the intimation will be sent a day prior to the event accordingly.

NOTE:- Your ward is supposed to bring water bottle, tiffin, pen/pencil box and school almanac only on the bagless day.

Warm regards

Poonamjit Kaur
Principal
