From the Principal's Desk

"Don't dwell on what went wrong. Instead, focus on what to do next. Spend your energies on moving forward toward finding the answer." ~ Dennis Waitley, American Motivational Speaker and Writer.

Even though it has been quite a while since we stepped into the 'New Normal' way of life, people all over the world, especially the children, continue to face various challenges post lockdown. Having stayed indoors during the pandemic has had its fair share of ill effects on their physical and mental health as well as their emotional well being. The good news is that we are not living in fear and faith is what keeps us going forward as we put all our focus on building the future of our children.

On that note, Smart Wonders has been actively conducting various sessions for its students, ranging from career counselling and entrepreneurship to addressing adolescent issues. Such immersive and interactive sessions by various resource persons and industry experts enhance the awareness levels of our students and make them self reliant in taking important life decisions. Platforms like these allow the students to go beyond the realm of their textbooks, and explore the world outside and the opportunities it holds.

As a part of its annual cultural celebrations, the school is conducting Class Shows this session. The beauty of these shows lies in the fact that every single child from the class is encouraged to contribute and play their part. Around the same time, our students continue to leave their mark in various events being conducted at other schools from around the region, beating stiff competition and standing apart in terms of skills and sheer talent.

I am immensely proud of all the efforts that our students have been making in adapting to the new normal. I would also like to appreciate the parents for putting their unflinching faith in us, and helping the Smart Wonders community grow stronger and better.

Warm Regards,
Poonamjit Kaur
Principal, Smart Wonders School

A Vibrant Class Show by the Students of Class 10

As a part of their annual cultural celebrations, the students of Class 10 presented a captivating Class Show. Themed 'Abhinandan India – An untold story of diversity in unity', the event took everyone on a vibrant theatrical walkthrough of the country and celebrated its rich diversity by means of songs, skits and some enthralling dance performances. The audience watched in rapt attention as the students, adorning colourful attire and accessories, depicted the history and culture of various regions across India. The grand finale brought all the participants together on the stage, reemphasizing that our diversity and differences are exactly what bind us together as a nation. The most special part of this spectacular event was the fact that every single student from the class contributed to the show by playing a role of their own, and absolutely no studies were compromised upon during the run up to the show.

An Activity on Seasons of the Year

'Each moment of the year has its own beauty'~ Ralph Waldo Emerson.

It is important for our students to understand the concept of seasons and have a knowledge of the four major seasons that our country experiences. This also contributes to their understanding of time and change. On that note, we created a fun and exciting activity on 'Seasons of the Year' for Class 1 students, which further helped enhance their listening skills, observation power and creativity.

The activity began with a number of visual images and videos about the different seasons of the year. We talked about what we wear, what we do and how our surroundings look during each season. Students then depicted their thoughts on a sheet of paper, creating beautiful drawings. The activity was simple yet engaging, and served as a fun learning experience for the students.

First -Aid Day Celebrations

“Safety is our Priority and First Aid is always helpful”

First aid is the first and immediate assistance given to any person with either a minor or a serious illness or injury. It plays an essential role in keeping a casualty from getting worse and helps to stabilize a person's condition, before professional help can arrive. Keeping this in mind, an awareness activity on first aid was conducted to train our little Wonderites of Class 2 by Ms. Neha Kapoor, a trained Nurse, who is presently looking after the infirmary of the school.

With the help of PPT and demonstrations, Ms. Neha described the importance of first aid and the essential contents of a First Aid Kit. The students listened with rapt attention as she also explained how to offer first aid in case of common accidents and mishaps, such as nose bleeding, burns, dog bite, snake bite and appropriate first aid for wounds. The Academic Coordinator and Head of the Junior wing appreciated the efforts and encouraged the students to become responsible and aware citizens.

Collage Making Activity on Healthy and Unhealthy Food

"The first wealth is health." – Ralph Waldo

A healthy diet is essential for nutrition and good health. When we consume fruits and vegetables that are fresh, seasonal and full of nutrients, we reduce the chances of suffering from diseases. Our little Smart Wonders of Class 1 learned the difference between healthy and unhealthy foods by means of a collage making activity. They not only designed beautiful collages along with their friends, but also spoke about them to the rest of the class. These collages were later displayed in the student's corner, and the students were encouraged to eat healthy food every day.

Healthy Breakfast Activity

"Eat breakfast like a king, lunch like a prince, and dinner like a pauper." – Adelle Davis

Breakfast is often called 'the most important meal of the day', and for good reasons. As the name suggests, breakfast breaks the overnight fasting period. It replenishes the supply of glucose to boost our energy levels and alertness, while also providing other essential nutrients required for good health. The students of Class 1 fully enjoyed their healthy breakfast activity. The students were encouraged to bring a healthy breakfast on that day. They ate their meal together in each other's company, and also shared the same with their educator. As the activity was integrated with the EVS topic – 'Sources of Food', the little Wonderites also discussed whether the source of their meal was plant or animal-based.

कविता पाठ गतिविधि

"कविता तब होती है जब किसी भावना ने अपने विचार को पा लिया हो और विचार को शब्द मिल गए हों।"

कविता आत्मा से रोजमर्रा की जिंदगी की धूल धो देती है। यह भाषा का तराशा हुआ संगमरमर है। यह पेंट के बिखरे हुए कैनवास की तरह है जहां हम पेंट के बजाय शब्दों का उपयोग करते हैं। सौंदर्य कविता का क्षेत्र है, बच्चे भावों, विचारों, भावनाओं, तुकबंदी, लय और शब्दों के संगीत की सुंदरता का आनंद लेते हैं। इन सभी तथ्यों को ध्यान में रखते हुए स्थापना वर्ष 29 सितंबर, 2022 को एक काव्य पाठ गतिविधि का आयोजन किया गया। बच्चों ने बड़े जोश और उत्साह के साथ सुंदर कविताओं का पाठ करके अपनी प्रतिभा और आत्मविश्वास को प्रदर्शित करने का अवसर प्राप्त किया। युवा कवि विभिन्न कविताओं के साथ आए और उन्हें खूबसूरती से सुनाया। उनके प्रदर्शन से शिक्षक और समन्वयक मंत्रमुग्ध हो गए।

Celebrating the Literacy Week

'A book is a gift you can open again and again' – Garrison Keill

To celebrate and inculcate the joy of reading books amongst students, The Literacy Week was observed from 27th September to 4th October, 2022.

The students brought a storybook to their classroom that they liked to read in their leisure time and spoke for a minute, stating their favourite character and what they liked most about the book. It was aimed at inculcating a love for reading for pleasure among the students from a young age. The enthusiasm and fervour among students could be witnessed through their active participation throughout this week of celebrations.

An Activity on Shapes

“For the things we have to learn before we can do them, we learn by doing them.” - Aristotle

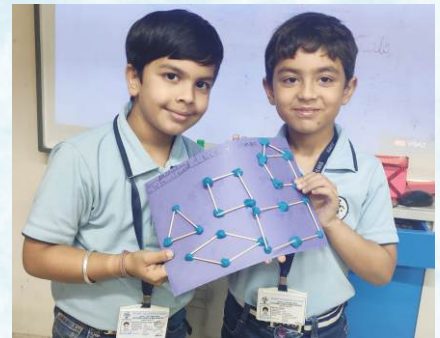

The ability to accurately identify shapes is a foundational mathematical skill, and it is quite rewarding for children because this world is full of shapes. Learning about different shapes helps children identify and organize visual information. To promote their creative and aesthetic skills, an activity on shapes was conducted for the students of Class 2. The children enjoyed creating different shapes like circle, square, rectangle and triangle with the help of clay and toothpicks on a sheet. They thoroughly enjoyed this activity as they learned about the basic properties of geometrical figures.

Assembly on Swachh Bharat

“When there is both inner and outer cleanliness, it approaches godliness.” - M. K. Gandhi

Swachh Bharat Abhiyan is one of the most popular and significant missions in the history of India. Swachh Bharat Abhiyan is also known as Clean India Movement. It was launched on the occasion of Gandhi Jayanti by the Prime Minister of India, Narendra Modi on 2nd October, 2014.

The students of Class 2 presented an assembly on Swachh Bharat on September 30, 2022. They began the assembly with poems in Hindi and English, followed by singing a melodious group song. The students also presented a beautiful skit which gave a strong message to the audience to keep their surroundings neat and clean. The Academic Coordinator and Head of the Junior Wing appreciated the efforts and the work done by the students and the educators.

Assembly on Diwali

Shine like sparkles, glow like candles and burn all the negativity like crackers.

The word Diwali is derived from the Sanskrit term Deepawali, which means "Row of Lights". This festival symbolizes the victory of light over darkness. To inculcate this value and mark the festival of lights, the students of 4C conducted a Class Assembly on October 17, 2022. They shared some interesting facts about Diwali, and explained how it is celebrated by people from different religions across the country. An informative video on eco friendly Diwali was screened as a part of this assembly. The students then shared some important safety measures to be followed while celebrating the festival of lights. At the end of the event, some appreciation certificates were also distributed by the Head and the Coordinator of the Junior Wing.

An Assembly on Honesty

The meaning of honesty is being truthful, even if one finds lying to be an easier option, telling the truth is the best course of action. To inculcate this value, students of Class 4D conducted their Class Assembly on October 10, 2022. The students explained why honesty is the best policy, as an honest person is always more courageous and confident than a dishonest person. Honesty helps in developing good attributes such as kindness, discipline, truthfulness and moral integrity, among others. On the other hand, lying, cheating, stealing and being greedy are the classic examples of being dishonest. The assembly concluded with the message that honest people are sincere, trustworthy and loyal, throughout their life. At the end of the assembly, some appreciation awards were also given away by the Head and the Coordinator of the Junior Wing.

Assembly on Dussehra

The students of Class 5A conducted an assembly on the theme – 'Dussehra'. The day began with a prayer to seek the blessings of the almighty. Students explained that the festival of Dussehra signifies the victory of good over evil forces. Also known as Vijayadashmi, it is celebrated on the final day of Navratri. There was a small thematic skit, by means of which, the students depicted that even though there is evil in this world, the light will always conquer the darkness.

Balanced Meal Plate – An EVS Activity

A balanced diet gives our body the nutrients it needs to function correctly. Eating a variety of foods keeps our meals interesting and flavourful. Along with carbohydrates and proteins, filling half of our plate with colourful vegetables and fruits also makes our meals enjoyable. To reiterate that message, the students of Class 3 engaged in an activity of making themselves a balanced meal plate. They used various fruits and vegetables to prepare a salad of their choice, and joyously showcased and shared it with their friends and class teacher.

Students of Class 3 during the Activity

Students of Class 3 during the Activity

Soluble and Insoluble Substances An EVS Activity

Hands-on activities go a long way in allowing the students to learn and grow, based on the experiences and the environment they are exposed to. Such activities are aimed at satiating curiosities and fuelling their scientific temperament. Class 4 students conducted several experiments in the Science Lab, to check the solubility of different substances in water. They used salt, sugar, sand, oil, lemon and soap in order to classify them on the basis of their solubility in water. After their observations, the data was compiled and interpreted by the students to derive conclusions.

Checking the Expiry Date An EVS Activity

EVS not only teaches us about our surroundings, but also creates awareness and helps us solve various day-to-day problems. On that note, an interesting activity was conducted in Class 5 wherein the students read the information provided on the packets of a few food items, medicines and cosmetic products. They noted down important bits of information, such as the weight, the ingredients, the safety standards, the manufacturing date and the expiry date of the product. In case of food items, they also checked whether the product has the FSSAI mark on the packet.

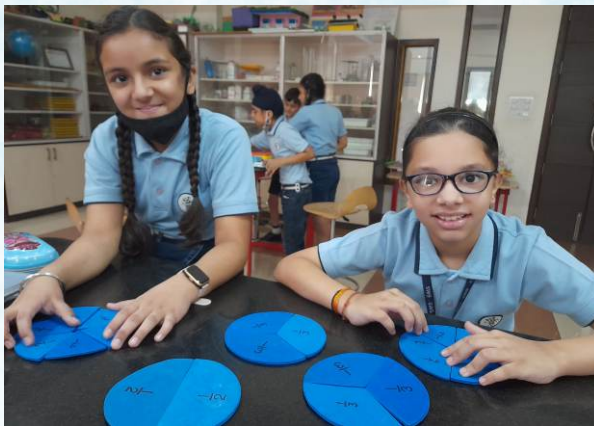

Students of 5C

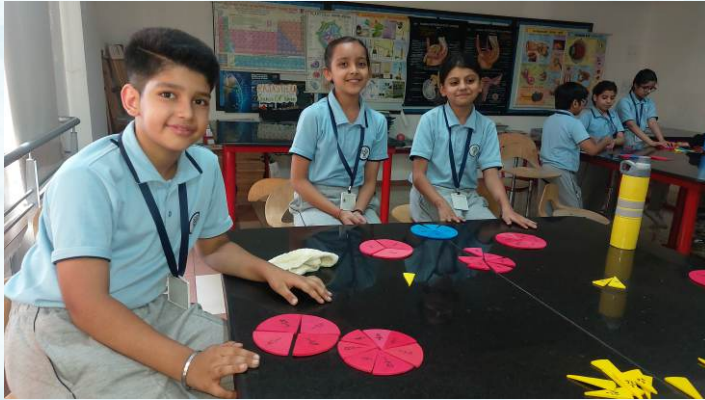

An Activity on Creation of Fraction Kits

As a part of their Mathematics class, the students of Class 4 created interesting fraction kits to learn some complicated mathematical concepts with much ease. This aimed at teaching them the concept of fractions, and the meaning of a numerator and a denominator. With the help of their kits, the students also made an attempt at understanding addition and subtraction of fractions, and how we can use them in our day-to-day life.

Math Lab Activity

“Tell me and I forget, teach me and I remember, involve me and I learn.” - Benjamin Franklin

It is a proven fact that children learn better by doing and exploring, and that holds true for all the subjects. By means of paper cutting, the students of Class 7 verified the following properties of angles in their Maths Lab:

- Exterior angle property
- Angle sum property
- Pythagoras property

It was an interesting activity as the students tried to understand and verify the properties using all possible angles, discussing their observations with their teacher and their friends and making way for a life long learning.

Students of Class 7

Bagless Days: Math Activity

During the course of this activity, the students of Class 6 created the Sieve of Eratosthenes - the easiest and the quickest method of finding prime and composite numbers, from a given set of numbers (1-100). This was followed by a questionnaire that tested their understanding of the concept. This activity was not only a fun way of enhancing their knowledge about different kinds of numbers, but also honed their artistic skills.

Smart Wonderites amazes the audience in Abacus

Vivaan Sareen, a student of Class 3C at Smart Wonders School, first laid his hands on Abacus when he was 5 years old. He started his journey with the 12th Cue, and has come a long way since, as he is now running the 5th Cue. He scored 100% in 5 out of 7 levels that he has participated in. He also attended the 11th National Soroban and Aneya Competition in August, 2021, and won the coveted First prize.

Principal, Ms. Poonamjit Kaur with Kavin Duggal, Yashkunwar, Kudrat, Navya and Manomay (Class 6), Bhavik Goel (Class 7), Nandini Vinodh, Tarun, Tegnoor and Ayush Agarwal (Class 8)

Smart Wonders stands out at Inter-School Competition

Students from our school participated in competitions from various categories at Kala Utsav, an inter-school competition conducted by Delhi Public School, Mohali. From over 800 students that represented their schools in this event, it was a moment of great pride as our students bagged several accomplishments. Smart Wonders stood:

- First in Little Oscars
- Second in Inventive Minds
- Third in Big Buzz Awareness
- Consolation in Table Aux of India

Smart Wonderites shines bright on the Rink

Bhavika of Class 5C bagged 3 distinguished Gold medals at the District Roller Skating Championship, organized by Mohali District Roller Skating Association in Village Dhelpur on September 3 and 4, 2022.

Smart Wonderites demonstrates unbeatable talent in Tennis

Riddhima Singh of Class 2C achieved the coveted First position at the Open Tennis Tournament, organized by the Paragon School Rising Star Tennis Academy. It was a matter of great pride for the school as well as her family, as she was one of the only girls to have participated in the U-8 category of the tournament, which was held on October 1 & 2, 2022 at Paragon School, Sector 69, Mohali.

Excellence in Olympiad Exam, 2021-22

Olympiads are competitive exams held across schools on an yearly basis to tap exceptional students with the best potential, talent, aptitude and IQ. These also serve as platforms for students to further enhance their knowledge and build their intellect. It brings us great joy as we share that Vriddhi Jindal and Kavin Duggal, students of Class 4B at Smart Wonders School, excelled in various Olympiad Exams in the year 2021-22 examination.

Kavin Duggal of 4B
