

Smart Wonders School

Thursday, 6th July 2023

SWS/ ACD/2023-24/30

Dear Parent,

Greetings from Smart Wonders!

Students have settled well in the classes and the academic rigour is going on in full swing. To bring about harmonious and integrated growth of every child, the school organises remedial classes for classes 6-8 on all working Saturdays from July onwards. This gives an opportunity to the educator to be with the students and facilitate learning by giving individual attention. These classes are aimed at developing the potential of each child to the optimum level so that the child does not lag behind and has better concept clarity.

The class teacher will be in touch with you and inform you about the subject for which your child will be required to attend the class. The classes will commence from Saturday, 8th July 2023 from 11:00 a.m. to 1.00 p.m. (fourth Saturday of the month will be 'off'). Your ward's individual time slot will be shared by the class teacher.

Note: - School transport facility will not be available for the remedial classes.

Warm regards

Poonamjit Kaur
Principal
