

# Smart Wonders School

Friday, 7<sup>th</sup> July 2023

SWS/ ACD/2023-24/31

Dear Parent,

Greetings from Smart Wonders!

The world around us is filled with numerous colours. As children develop their inquiring spirit, they are made aware to differentiate and appreciate the beautiful world of colours around them through hands-on learning experiences. Green is the colour of life, nature and energy. It is associated with growth and prosperity. To facilitate their knowledge and create an awareness about the significance of the colour through Van Mahotsav we will be celebrating “Green Day” on Tuesday 11<sup>th</sup> July 2023. Kindly ensure that your ward comes dressed in green to school along with objects and pictures of the same colour. To reinforce the concept students will be engaged in a craft activity and will be motivated to speak a few lines as well.

Looking forward to an exciting “Green Day.”

Warm regards

**Poonamjit Kaur**
