FOSTERING LIFELONG LEARNERS,
BUILDING CHARACTER, AND IGNITING
PASSION FOR KNOWLEDGE.

From the *Principal's* Desk

“ LIKE THE PAGES OF A BOOK, EACH DAY UNFOLDS A NEW CHAPTER OF DISCOVERY AND GROWTH FOR OUR STUDENTS, AS THEY WRITE THE STORY OF THEIR EDUCATION WITH PASSION AND PURPOSE.”

Dear Parents

March has been a month filled with spirited events and academic milestones at our school.

Our best wishes to the students gearing up for the CBSE Board Examination 2024. They were showered with encouragement and luck during the Tilak Ceremony in the school. The entire school leadership joined in expressing confidence in their abilities.

The Junior Wing students showcased their sportsmanship and energy in the annual Field Fiesta. Various races and enthusiastic participation made it a memorable event, highlighting the importance of healthy competition and teamwork.

We successfully conducted essential Parent-Teacher Meetings, including the Final PTM for Class 9th students and the pre-board PTM for Class 10th students. I'm pleased to announce the promotion of all Class 9th students to Class 10th, marking a significant step in their academic journey.

Our Foundation Year students celebrated Basant Panchami with a burst of creativity through a drawing competition, embracing the upcoming season of spring.

Addressing the holistic development of our students, an interactive session on Behaviour Management was organized for Primary Years students by our School Counsellor.

With the changing weather, I would urge all our students to stay well covered and hydrated. A healthy body and mind are crucial, especially during exam preparations.

Speaking of exams, I pray for all students to give their best. Their hard work will undoubtedly lead to success, and we are here to support them in every way.

Wishing everyone a successful and fulfilling month ahead.

Warm regards

Poonamjit Kaur
Principal

Class Activities

Senior Wing Students celebrate Ek Bharat Shreshtha Bharat

In order to promote the spirit of national integration through a deep and structured engagement between Punjab and Odisha, various activities were conducted under the 'Ek Bharat Shreshtha Bharat' programme for the students of Classes VI-X.

These activities included crafting diverse ornaments and toys inspired by the ancient Harappan cities and the traditional craftsmanship of Odisha, visual storytelling, comparative study of cultures, in-depth research to unravel the intricate details of the natural landscapes, and many more. These activities aimed to showcase the rich heritage and culture, as well as the customs and traditions of both the states, thereby enabling students to understand and appreciate the diversity that is the essence of our democratic framework.

Ek Bharat Shreshtha Bharat

Fun with experiments

'For the things we have to learn before we can do them, we learn by doing them.'

An activity on 'Fun with Experiments' was organized for students in the Foundation Year, recognizing that children learn through exploration and discovery. Experiments help students become more observant and inquisitive, sparking creativity. Hands-on experiences allow students to experiment through trial and error, learn from their mistakes, and understand the potential gaps between theory and practice.

To demonstrate the importance and relevance of Science, the experiments conducted focused on soluble and insoluble substances, inflating balloons with vinegar and baking soda, and generating static electricity with salt and pepper. Students thoroughly enjoyed exploring their scientific aptitudes, providing them with the opportunity to expand their knowledge in the field of Science and Technology. These hands-on experiments reinforced the knowledge and concepts acquired in the classrooms or through books.

Students of UKG

Students of Class 1

Students of Class 2

Innovative Experiences

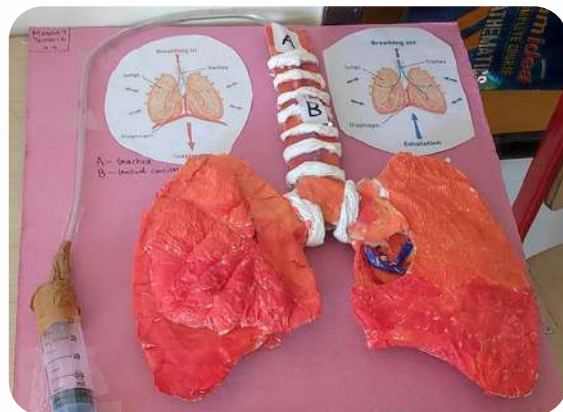

Our students cultivate a profound understanding of how scientific concepts manifest in the real world. Their innovative approach, blending traditional models with cutting-edge technology, not only enhances their comprehension skills but also sparks curiosity and wonder amongst their peers and the broader community, fostering a fresh perspective on Science.

Devangana, a student of Class 9C, skilfully displayed her baking prowess, seamlessly merging it with her scientific knowledge gained in class. Shaping a cake like a human brain, her masterpiece creation was a delight to see and inspired awe, while expanding knowledge.

Harshita, a student of Class 9B, created a density jar by layering liquids of different densities. She beautifully illustrated the relationship between hydrophobicity and miscibility, showcasing the density of everyday liquids such as oil, water, soap, and honey.

Yuvraj Bhargav from Class 9C presented an amazing pizza cell model using kitchen ingredients to represent cell organelles: cell – pizza dough, cytoplasm – white sauce, nucleus – tomato, endoplasmic reticulum – noodles, mitochondria – cucumber, lysosomes – green chilli, ribosomes – cumin seeds.

Mannat Sharma from Class 9A exhibited a working model of lungs demonstrating the breathing process. The lungs and trachea were innovatively created with paper mache, and cartilage rings were formed with the help of threads.

Snapshots from the event

Class Assemblies

Assembly on Vasant Panchami

The Wonderites of the UKG Class conducted an assembly on Vasant Panchami on the 6th of February 2024 with great joy and fervour. The assembly began with the lamp lighting ritual and a prayer invoking the blessings of the Goddess of Knowledge - Maa Saraswati. The environment echoed with the festive spirit of spring as the students performed Saraswati Vandana. They also shared the significance of the day through poetic expression and soulful renditions. The Director, Ms. Avinash Kaur, appreciated the students for their confidence and mesmerizing performances, motivating them to spread love and happiness with the onset of the Spring season.

Assembly by UKG

|| Sports Day - Foundation Years ✨

The Foundation Years hosted its Annual Sports Day, 'Field Fiesta,' on the 16th of February 2024 amidst mirth, verve, and camaraderie. The Principal declared the sports meet open with the release of balloons into the clear blue sky, and the participants reaffirmed their pledge towards maintaining the true spirit of sportsmanship, integrity, and fair play during the games, followed by the recital of the sports anthem.

The highlights of the sports day were the 50m and 80m flat races. The students captivated the audience with their fun-filled races, including the frog race, penguin race, and pyramid race. The students of Foundation Years thrilled the spectators with their skills and dexterity. The culmination of the day's events was marked by the prize distribution ceremony.

Principal, Ms. Poonamjit Kaur, praised the efforts of the participants and emphasized the school's belief that, apart from academics, sports play a vital role in the holistic development of the children.

-  **Ekanshveer Singh** and **Jay Pareek**
-  **Ayaan Ummat** and **Sanidhya Dhatwalia**
-  **Naman Deora** and **Ahaanvir Singh**

Field Fiesta - Foundation Years

Sports Day - Primary Years

The Primary Wing Sports Day, 'Field Fiesta,' was held on the 15th of February 2024, for the students of Classes 3, 4, and 5 with great ardor. Principal, Ms. Poonamjit Kaur, declared the Sports Meet open by releasing balloons into the blue sky, symbolizing a spirit of goodwill and sportsmanship in the games. This was followed by a 'Flag Run' and the rendition of the sports anthem, instilling a sense of pride and unity amongst the students.

As the day unfolded, spectators witnessed a vibrant display of fun races where students tried their best to outdo each other. The school ground echoed with cheers of applause. The winners were felicitated with medals, and participants were applauded for their courage to play sports.

Ms. Poonamjit Kaur praised the efforts of the participants, expressing pride in the students' achievements, and affirmed that participation is more important than winning. She thanked the Head of the Junior Wing, Ms. Sarika Sharma, the Coordinator, Ms. Payal Bedi, along with the educators for their hard work and support in making this day a great success.

Results of Class 3A

Flat Race Winners

- 1 **Jugraj Singh, Jaiprabh Singh, Kunal Mishra, Geethayini Sarguru**

Solemn Tilak Ceremony for Smart Wonderites

We continued the tradition of hosting the Tilak Ceremony for the Class 10 students of the 2023-24 batch, imparting blessings for their upcoming board examinations. Principal, Ms. Poonamjit Kaur, applied the sacred Tilak on each student's forehead, emphasizing the importance of approaching academic endeavours with clarity, focus, and a sense of purpose. Vice Principal, Ms. Raina Chona, alongside the educators, sought the blessings of Goddess Saraswati for the aspiring students, offering Prasad with heartfelt good wishes. The students joyfully accepted the blessings and positive energy, embracing the divine support for their journey ahead.

Snapshots from Tilak Ceremony

Workshop on Behavioural Management

Ms. Mandeep Nijher, the school counselor at Smart Wonders School, conducted a vital workshop aimed at enhancing behaviour management skills among students aged 8 to 11 years. The session, held on the 5th of February 2024, delved into strategies empowering young learners to navigate their emotions and interactions effectively.

During the workshop, students actively engaged in discussions and activities centered around self-awareness, empathy and conflict resolution. Ms. Nijher emphasized the importance of recognizing and expressing emotions in a healthy manner.

The workshop also addressed positive reinforcement techniques to encourage desired behaviours. Students learned about setting personal goals, self-monitoring and celebrating small achievements. By equipping them with these essential life skills, the workshop aimed to create a positive and supportive school environment, wherein students thrive emotionally and academically.

Workshop on Behavioural Management

Inter-house EVS Quiz

To foster a sense of environmental stewardship from an early age, the EVS Department organized an Inter-House EVS Quiz on the 2nd of February 2024 in the AV Hall. The EVS quiz is a valuable educational tool designed to engage young learners in understanding and appreciating the world around them. The primary goal is to instil a sense of curiosity and responsibility towards the environment.

The preliminary round was conducted for all students and the top scorers competed in the final round of the Inter-House EVS Quiz. The quiz featured various engaging and challenging rounds, covering different aspects of Environmental Sciences. Through this quiz, children not only reinforced their classroom learning but also developed insightful awareness of their surroundings. It served as an interactive and enjoyable way to assess their comprehension of key concepts in EVS.

The winners demonstrated outstanding collaboration and teamwork. The Director, Ms. Avinash Kaur, congratulated all the participants and the winners for their exemplary performance. She also motivated them to stay abreast of the latest information for more frequent participation.

Wonderites Shine at the Inter School Competition

In an enchanting display of creativity and eloquence, students of Class 5 of Smart Wonders School took part in a literary event organized by St. John's High School in Chandigarh, tailored to celebrate creativity and ingenuity among the students of primary classes. The event by the name of **Page Turners 2.0 Where Imagination Meets Sustainability** endeavoured not only to provide these little stars with an opportunity to showcase their literary talents, but also reaffirm their commitment to sustainability. The school conducted three stimulating competitions. Among fierce competition from various schools, our students of Class 5 emerged victorious, securing second and third prize respectively.

In Tell- a -Tale, wherein students had to narrate a story based on one of the SDGs,, **Nitara Bhardwaj from Class 5A** bagged the 3rd position. In Colours-Of-Compassion poster-making competition **Gurniwaz Kaur Saini from Class 5B** bagged the 3rd position whereas in Frame-To-Fiction picture prompt, **Kasak Goel from Class 5A** secured the 2nd position.

The Principal, Ms. Poonamjit Kaur, praised the outstanding performances of the students by encouraging them to continue striving for greatness in all their endeavours. She praised them for their dedication, perseverance and talent that not only brought honor to the school, but also reflected the high standard of education and support provided by the school.

Student Corner

EFFECT OF CHATGPT ON THE EDUCATION SYSTEM AND OTHER FIELDS

Since the day ChatGPT was introduced, it has had a significant impact on our daily lives. The field of education and digital industry has been entirely on a fall due to the new multitasking AI (Artificial Intelligence). Recently, companies like Microsoft, IBM and Dell have laid off more than 3000 employees because their work could be done with more efficiency by AI.

The major impact that is not really getting significant global coverage is how chatbots like ChatGPT, Bard and many more are affecting the studies of the students globally. If you take the estimation, every 8 out of 10 students use ChatGPT for doing their homework like writing essays or letters, writing answers to complex questions, solving trigonometry and quadratic equations. This is really worrying as students are the future of the country and a country cannot thrive with such students who need an electronic means to do simple mental equations. Many students who are aiming towards the coding, editing and software industry could be easily overtaken by AI.

According to a new study from Singapore, by 2050 students may even struggle to perform a simple mathematical problem. Imagine a student in 2047 is using a calculator for solving $2+2!$ Isn't that worrying in this competitive era? But there is still some hope left.

Many technical experts such as Elon Musk (the Co-founder of Tesla and Space X) have given a statement that, "If AI is destructive in nature, and surely humans will understand how to work with it. If AI finishes 3000 jobs, it will make more 3000 jobs." I agree with the fact that AI is constructive, if used properly, but may become destructive for mankind if misused. We may adapt to this change in a few decades but in the present, AI is evidently being misused and it's a fact.

My Class 9 Journey

This year was a pivotal chapter in my academic and personal development. It was a year filled with a number of opportunities for me. From learning skills in the class to being a council member, I thoroughly enjoyed every phase of this year. The success of 'Confluence' stands as a testament to the collective efforts of the organizing committee, and I am grateful for the chance to contribute to its grandeur. Another significant opportunity was to showcase my entrepreneurial spirit at an event held in Faridabad. Presenting my business idea was a chance to demonstrate my creativity and innovation and a valuable learning experience.

Our annual production '#Khwahishein' was a spectacle that showcased the talent and dedication of our schoolmates. Nevertheless, my favourite event - the farewell party that we hosted for our seniors was an occasion that I can never forget. This year I made memories that I will always cherish. In the end, I am immensely grateful to my teachers for their support and guidance throughout the year. I am eager to continue learning, growing and creating unforgettable memories in the upcoming session.

Class- 9C

An Unforgettable and Remarkable Journey as 9th Grader

Session 2023-24, my 9th grade in Smart Wonders, was a journey full of countless opportunities for learning and growth. The session started with the formation of new friendships that blossomed into enduring bonds by the end of the year. Academically, 9th grade pushed me to new heights and I embraced the challenges by immersing myself in subjects ranging from Mathematics to Enrichment activities like Film-making.

One of the highlights as a ninth-grade student was winning the final round of the national level competition - 'Schoolathon on Sustainability' at Manav Rachna International University, Faridabad. The annual function, (#Khwahishein) was also a huge success, brimming with delightful memories. I am sincerely grateful to the school for entrusting me with the role of Deputy Head-Girl. This experience has taught me invaluable lessons of leadership, responsibility and collaboration, shaping me into a better version of myself. This year culminated with a heartfelt farewell 'Bollywood Dhamaka' organized by us bidding adieu to our seniors. 2023-24 was truly a year filled with remarkable memories and great learning opportunities. I look forward for more opportunities to serve with dedication and diligence in future.

Class- 9C

My Wonderful Experiences

Ninth grade has been a wonderful one as it made the session 2023-24 something that I will remember forever. As it is said that every experience in life is a learning experience, in this class I got to experience tons of ups and downs which taught me great values. Connecting with my teachers, making new friends, learning to paint and play tennis, ninth class had a huge impact on my academic and personal life as well.

The students also got to be part of various activities such as the farewell for the 10th grade students. It was a memorable event where we said the last goodbye to our seniors. The football match and other house activities proved to be a fun way of learning the spirit of teamwork. The annual function, '#Khwahishein' was a great success and the parents could see the hard work put in by all the students of the school. Overall, this session offered us many opportunities to create greater bonds among each other, participate in different events and competitions and made us be grateful for such a wonderful opportunity all over again.

My Journey of 2023-24

Ninth grade has been a wonderful one as it made the session 2023-24 something that I will remember forever. As it is said that every experience in life is a learning experience, in this class I got to experience tons of ups and downs which taught me great values. Connecting with my teachers, making new friends, learning to paint and play tennis, ninth class had a huge impact on my academic and personal life as well.

The students also got to be part of various activities such as the farewell for the 10th grade students. It was a memorable event where we said the last goodbye to our seniors. The football match and other house activities proved to be a fun way of learning the spirit of teamwork. The annual function, '#Khwahishein' was a great success and the parents could see the hard work put in by all the students of the school. Overall, this session offered us many opportunities to create greater bonds among each other, participate in different events and competitions and made us be grateful for such a wonderful opportunity all over again.

Adolescent Peer Educator Programme

I, Japleen Kaur Saini from Class 9B, was a part of the 98th and 99th batch of the Adolescent Peer Educator Programme held by CBSE in December 2023, that transformed me completely. The workshop was spread over four days and included eight themes. It helped me become an optimistic person and develop a positive approach towards every problem I face in life. The participants in the workshop were very motivating and made the workshop really exciting. The workshop was all about confronting the challenges faced by adolescents. The peer educators taught us in a fun and captivating way which made the workshop enthralling. The workshop helped me feel empowered and motivated to support my peers effectively. It improved my decision making skills and helped in building leadership ethics. I understood the importance of self-management and resilience. I look forward to educating my peers and helping them build a positive attitude towards life. I hope to conduct workshops in future which can help me spread the message of optimism and offer a transformative learning experience which would empower individuals with knowledge, skills and confidence.

I, Harshita Sharma of Class 9B, was fortunately blessed with the opportunity to be a part of the 98th and 99th batch of the 'Adolescent Peer Educator Programme' hosted by the CBSE academic unit in December 2023. It has been one of the most productive and interesting workshops I have ever attended. The workshop aimed at inculcating various life skills including self-awareness, empathy, critical thinking, effective communication and personal hygiene in the peer educators, so that they in turn, can guide their peers in the classroom. We discussed eight important themes in a span of four days and always had a quick recap of the themes of the previous day before we began with the day's discussion. On the first day itself, the activities conducted and the interactive nature of the workshop aroused my interest. The activities gave us a deeper look into the problems that all adolescents face and helped us brainstorm about the solutions. The mentors were extremely polite and open towards all our answers and inspired us to participate more. We were exposed to a variety of thoughts and ideas different from ours, which would be of great use while we move towards conducting these workshops in our school.

According to me, the rewarding opportunity of being a peer educator will help us acquire various life skills and at the same time, will allow us to guide our peers in situations of distress or dilemma. I had been looking for such an opportunity for a long time and I'm determined to fulfil this responsibility efficiently. The workshop has opened a lot of doors for the future development of adolescents and has successfully motivated us to do our part in building a healthy and happy adolescent population. I eagerly look forward to such workshops for us as well as our juniors.

Teacher's Corner

Examinations - A Friend

Hello friend!

Embrace exams as companions on your journey,
They're here to gauge your creativity and knowledge mastery.

Encounter them at each life stride with courage and grace,
Face them boldly, survive, and emerge with your own pace.

Tests may come in written or spoken form,
Stay resilient, maintain a zestful norm.

Throughout your student years, diverse subjects unfold,
Read, understand, explore, let knowledge be your stronghold.

Express freely in your unique voice,
Stay focused, upward growth is your choice.

Regular practice, grasp the basics with zeal,
Delve deep into each topic, let understanding be real.

Don't shy away from asking questions,
Value elders' advice, follow their suggestions.

No need for stress, learn and rewind,
Panic and pressure won't enhance the mastermind.

Exams are allies, well-wishers on your quest,
Different at each stage, put your skills to the test.

Smile, relax, retain your sparkle and shine,
Conquer them one by one, victory will be thine.

SWS hosts a Library Visit

“Libraries store the energy that fuels the imagination. They open up windows to the world and inspire us to explore and achieve, and contribute to improving our quality of life.”

— Sidney Sheldon

A library equips students with lifelong learning. It allows them to develop their imagination, improve concentration, gain information and increase awareness, all in one place. The library at Smart Wonders School is equipped with over 7800 books, 22 monthly magazines and 6 different newspapers.

To experience the joy of reading and explore a variety of books, the tiny tots of Small Wonders School from Phase VII, Mohali, visited the Smart Wonders School Library. It was an exciting day for them as the young learners enjoyed picking up their choice of books for reading and going through them with the help of their teachers and friends.

Smart Wonders School, Sector 71, Mohali

The school organised a 'tilak' ceremony for Class X students to seek divine blessings before their board examinations. Goddess Saraswati's blessings were invoked for the students along with their gurus in the school. Principal Poonamjit Kaur applied the 'tilak' and gave her blessings, while Vice-Principal Raina Chona distributed 'prasad' and blessed the students along with the educators. The students were encouraged to stay healthy, remain stress-free and prepare well for the exams.

Smart Wonders School hosts sports day for junior wing

MOHALI: Smart Wonders School, Sector 71, organised junior wing sports day with great zeal and enthusiasm, showcasing the athletic prowess and sportsmanship of the students along with the fun games.

Principal Poonamjit Kaur declared the meet open by releasing balloons, representing the spirit of goodwill in the games. This was followed by a flag run and rendition of the sports anthem, instilling a sense of pride and unity among the students.

The students were appreciated for

their effort, fostering a culture of encouragement and motivation, and the winners were felicitated with gold, silver and bronze medals.

Kaur expressed pride in the students' achievements and reiterated that participation is more important than winning.

She thanked junior wing head Sarika Sharma, coordinators Payal Bedi and Manveen Mander, along with the educators for their hard work and support in making the event a resounding success.
