

Smart Wonders School
Science Sparks – Fun with Experiments
UKG

Saturday, 24th January 2026

SWS/ ACD/2025-26/155

Dear Parent

Greetings from Smart Wonders!

We are excited to inform you that the school is organising **Science Sparks – Fun with Experiments** on **Thursday, 29th January 2026** for our Foundation Years students.

As part of this engaging experience, children will conduct a small, age-appropriate experiment to spark their curiosity, creativity, and love for learning. In the Foundation Years, children learn best through exploring, discovering, and hands-on experiences, and this activity is designed to support the same.

Kindly ensure that the following items are sent with your child on **Thursday, 29th January 2026**.

- **1 small packet of baking soda and turmeric powder**
- **1 small bottle of hand sanitizer**

We look forward to an enjoyable and enriching learning experience for our young scientists.

Warm Regards

Ruchika
