

## REVIEW ASSESMENT SCHEDULE - CLASS 3

Tuesday, 21<sup>st</sup> April 2026

SWS/ACD/2026-27/14

Dear Parent

Greetings from Smart Wonders!

We are pleased to share that the students are gearing up with their academic fervor and are already showing readiness towards learning at the next level.

The **Quarterly Reviews, which are once in three months**, will help to evaluate not only what students have learned, but also how effectively they are able to apply their knowledge, think critically, and express their ideas creatively.

### Process of Review

- The Review Assessment is formative in nature and designed as a continuous and child-friendly evaluation process that focuses on overall learning rather than rote memorization.
- Each review is based on the prescribed syllabus covered in class during that quarter.
- Students are assessed on:
  - Conceptual understanding
  - Application of knowledge
  - Creative expression
  - Critical thinking skills

**Observation and Feedback:** Teachers closely observe student performance and provide constructive, qualitative feedback instead of marks.

**No Marks System:** The assessment is formative in nature; hence, no numerical marks or grades are awarded.

**Individual Support:** Based on the outcomes, teachers identify learning gaps and provide timely guidance and support to each child by providing reinforcement worksheets to strengthen the concepts.

**Parent Communication:** The completed review sheet will be shared and discussed with parents during the Parent-Teacher Meeting (PTM).

## REVIEW ASSESMENT SCHEDULE - CLASS 3

Class -III			
Date	Day	Subject	Syllabus
