

Recap Schedule Class-UKG

Monday, 13th April 2026

SWS/ACD/2026-27/8

Dear Parent

Greetings from Smart Wonders!

At the Foundation Years, we believe that learning is most effective when it is reinforced consistently. Homework at this stage is designed as a simple recap of the work done in class, helping children revisit and strengthen their understanding in a stress-free manner.

We will be sharing reinforcement worksheets, reading tasks, and recap activities such as spellings and log words. These activities are thoughtfully planned to ensure that children practice what they learn in school while also enabling you to stay updated with your child's classroom learning. Your support at home in revisiting these concepts will go a long way in building clarity and confidence in your child.

To maintain consistency, we are introducing a structured Recap Schedule, which will be followed across all Foundation Year classes. This schedule will guide the distribution of homework and ensure a balanced approach to practice and revision

Days	Subjects
Monday and Friday	Math, English
Tuesday and Thursday	Hindi
Wednesday	EVS

We look forward to your continued support and cooperation in making learning a joyful and meaningful experience for our young learners.

Warm Regards

Ruchika Sharma
Principal
