

TEACHERS' PROFESSIONAL DEVELOPMENT WORKSHOP

Friday, 3rd July 2026

SWS/ACD/2026-27/50

Dear Parent

Greetings from Smart Wonders School!

At Smart Wonders School, we firmly believe that the quality of a child's education is a direct reflection of the quality of a teacher's growth. Our teachers are lifelong learners, and we remain deeply committed to their continuous professional development so that every classroom stays vibrant, innovative and responsive to the changing needs of our students.

The world our children are growing up in is evolving faster than ever before, shaped by artificial intelligence, digital collaboration and rapidly changing skill demands. To prepare our students for this future, it is essential that our teachers are equipped not only with strong subject expertise but also with futuristic skills that make learning more meaningful, relevant and engaging.

In keeping with this commitment, a dedicated **Week of Professional Development** was conducted in the month of June, where our teachers came together to learn and implement new and innovative forms of learning for an active, engaging classroom.

As part of this ongoing commitment, our educators regularly participate in workshops, training sessions and collaborative learning programmes that focus on:

- AI-integrated pedagogy to personalize learning and spark curiosity in the classroom
- Design thinking and computational thinking to build young problem-solvers
- Digital literacy and ed-tech tools that make lessons interactive and future-ready
- Critical thinking, collaboration and communication for real-world readiness
- Social-emotional learning to nurture well-rounded, resilient learners
- Sustainability and global citizenship woven into everyday teaching

By embracing these future-ready skills, our teachers are able to move beyond rote learning and create classrooms where students think critically, ask questions, apply concepts to real life and develop the confidence to navigate an ever-changing world. This continuous investment in our teachers directly translates into deeper, more meaningful and more relevant learning experiences for every child.

We take this opportunity to thank you for your continued trust and partnership. Together, we remain committed to nurturing a culture of learning and excellence, ensuring that our children are taught by educators who are always growing, always curious and always future-ready.

We are pleased to share a **few glimpses** and Teacher's joyful learning experience of the workshop with you.

Warm Regards

Ruchika Sharma
Principal
