

**PREVENTIVE MEASURES - MONSOON SEASON
CLASSES UKG to X**

Tuesday, 21st July 2026

SWS/ACD/2026-27/63

Dear Parent

Greetings from Smart Wonders School!

With the ongoing monsoon season and changing weather conditions, we have noticed an increase in seasonal illnesses and viral infections among children. Common symptoms include:

- **Runny nose**
- **Sore or scratchy throat**
- **Sneezing**
- **Watery eyes**
- **High fever or body aches**
- **Cough and cold**

We request that you keep your child at home if he/she shows any of these symptoms, to help prevent the spread of infection among other students.

The health and well-being of your child, and of the entire school community, remains our highest priority. Please allow your child adequate rest and recovery time before they return to school.

We appreciate your cooperation in helping us maintain a safe and healthy environment for all our students.

Thank you for your understanding and support.

Warm Regards

**Ruchika Sharma
Principal**
