Fostering Lifelong Learners, Building Character  
and Igniting Passion for Knowledge.

## From The PRINCIPAL'S DESK

### **Dear Students, Parents, and Staff**

Our environment is one of our greatest treasures, and each one of us has the power to protect it through simple, thoughtful actions. As Environmental Guardians, let us pledge to keep our surroundings clean, conserve water and energy, reduce waste, and care for every living being.

At our school, we believe that small acts of responsibility today create a greener, healthier tomorrow. By planting trees, saying no to single-use plastics, recycling, and respecting nature, we inspire positive change within our community.

I encourage every student to be a responsible Environmental Guardian - not just in school, but wherever you go. Together, let us nurture a culture of sustainability and leave behind a cleaner, greener planet for future generations.

**"The Earth does not belong to us; we belong to the Earth. Let us protect it with care and pride."**

Warm Regards

**Ruchika Sharma**

Principal

## From Holiday Break to Brilliant Creations

Holidays are for rest, but our students at Smart Wonders School chose to rest and create. We applaud the outstanding effort and dedication shown by students in completing their holiday homework.

From vibrant art-integrated projects to thoughtful research work and innovative models, each submission reflected creativity, sincerity, and a passion for learning. It was heartening to see how our students used their break to explore new ideas and present them with such care and originality.

Your hard work has not gone unnoticed. You've proven that learning truly happens everywhere, not just within the four walls of a classroom.

Congratulations to all our students for turning homework into a celebration of curiosity. Keep shining, Smart Wonders!

# One Earth, One Health

## Yoga for a Better Tomorrow

On the occasion of International Yoga Day, the students of Smart Wonders School enthusiastically participated in a Yoga Challenge from their homes, demonstrating balance, flexibility, focus, and inner strength through various yoga asanas.

Yoga is not just a form of exercise; it is a way of life that nurtures a healthy body, a calm mind, and a positive spirit. By embracing yoga from an early age, our students learn the importance of discipline, mindfulness, resilience, and holistic well-being.

We are proud of our young Yogis who celebrated the true essence of yoga with dedication and enthusiasm.

"Yoga is the harmony of body, mind, and soul."

Happy International Yoga Day!

# Teachers' Learning Journey

At Smart Wonders School, learning never stops—even for our educators!

Our week-long Professional Development Program empowered teachers through expert-led sessions on POSH & POCSO Awareness, Project-Based Learning, Happy Classrooms, Competency-Based Assessment, AI in Education, Inclusive Education, Foundational Literacy & Numeracy and Effective Classroom Management.

Through engaging workshops, peer learning, and hands-on activities, our educators explored innovative teaching practices, strengthened their understanding of child safety and wellbeing and embraced technology to make learning more meaningful and impactful. Every session reflected our commitment to nurturing confident educators who inspire confident learners.

As we begin another academic year, our teachers are better equipped to create safe, joyful, inclusive, and future-ready classrooms where every child can learn, grow, and thrive.

Because when teachers grow, students thrive.

## Enrichment Program

At Smart Wonders School, we believe that true education nurtures both the mind and the talent within. Our Enrichment Activities Program gives students the opportunity to explore their interests, develop new skills, and grow in confidence through a wide range of clubs.

Every student has chosen a club based on their passion, and each week they dive into hands-on learning with expert mentors and educators.

These enrichment sessions are more than just activities - they are spaces where students discover hidden talents, learn life skills, and build friendships beyond the classroom. By pursuing what they love, our Smart Wonders are becoming confident, well-rounded individuals ready for the world ahead.

Because at Smart Wonders, every child's interest matters, and every skill counts.

## Celebrating Creativity

Art is the language of the soul, and at Smart Wonders School, our students speak it beautifully. The recent art work created by our young artists is a vibrant showcase of imagination, observation, and self-expression.

Kanika Bavashar  
4th - D

From bold brush strokes to intricate sketches, each piece tells a unique story. Our students explored a variety of mediums - watercolors, acrylics, pastels, clay modeling, and mixed media - bringing themes like nature, festivals, emotions, and social messages to life. The corridors and display boards now glow with landscapes, portraits, abstract designs, and craftwork that reflect both skill and heart.

These artworks are more than just colors on paper. They represent hours of focus, creative risk-taking, and the joy of making something truly their own. Guided by their art teachers, students learned new techniques, elements of design, and the value of patience and detail.

We are proud of every Smart Wonder who picked up a brush, molded clay, or cut paper with purpose. Your creativity inspires us all and adds beauty to our school every day.

Keep creating, keep expressing - because the world needs your art.
